

PROJECT DEMONSTRATION VIDEO

Strategic Product Placement Analysis

Demonstration Overview

The project demonstration video presents the complete working implementation of Strategic Product Placement Analysis. It demonstrates the deployed Flask portfolio, project overview, Tableau Dashboard, interactive retail analysis, dashboard filters, Tableau Story views, web integration, and final project presentation.

Demonstration Coverage

Project Area	Demonstrated Content
Portfolio	Deployed web application and project interface.
Project Overview	Retail analytics objective and product placement analysis purpose.
Tableau Dashboard	Category performance, demographics, seasonal sales, pricing, and foot traffic analysis.
Dashboard Interaction	Interactive filters and visual exploration of retail data.
Tableau Story	Three analytical views covering category performance, foot traffic and position, and placement distribution.
Web Integration	Tableau Dashboard and Story embedded into the Flask and Bootstrap interface.
Final Project	Testing, public deployment, and complete project demonstration.

Demonstration Outcome

The video demonstrates the end-to-end project implementation and presents the Tableau analytics, Story, Flask web integration, and deployed portfolio as a complete individual project implementation.
